1. The attached memorandum was initiated within this division upon receipt of a piece of outstanding work by the CIA detachment of your organization (NPIC/CIA/PID). I have reviewed the referenced memorandum and concur completely. NPIC is to be commended for its excellent analysis and presentation of a large amount of material on a very timely basis, and I should like to express formally our appreciation for this excellent support. The memorandum provided will obviously be an important basic reference work on the Sary Shagan Anti-Missile Test Center.

MEMORANDUM FOR: Chief, Military-Economic Division, ORR

THROUGH: Chief, Guided Missile Deployment Branch, ORR

SUBJECT: NPIC Response to C-RR-3-80, 342 and C-RR-3-80, 342
Supplement 1 (CIA/PID Project C946-63)

1. This branch recently received a memorandum from NPIC/CIA/PID in answer to two of our requirements submitted in connection with NIE 11-3-63. The memorandum, containing some 100 pages of data, does an outstanding job of analysing, organizing and reporting a very large amount of photography. Many heretofore unobserved, but significant details and relationships have been brought to light as a result of the skillful and painstaking work of the responsible photo interpreter. Moreover, the requirement was answered in an unusually short amount of time, considering the size of the project.

2. We are most grateful for this kind of cooperation and feel that such outstanding performance should be brought to your attention.
